Don't Prod Your Liver to Action

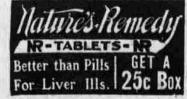

MR Overcomes Biliousness, Constipe tien, Bick Headsche, Quickly. No Griping or Pain. Guaranteed.

The organs of disestion, assimilation and elimination—the Stomach, liver and bowels—are closely allied, and the proper action of any of these organs is largely dependent upon the correct functioning of all the others.

"Whipping" your liver into action with calomel or forcing your bowels with fritating lanatives or strong eatherites is a great mistake. A better, safer plan is strengthening and toning the whole digestive and eliminative system with Nature's Remedy (NR Tablets), which not only brings immediate relief, but genuine and lasting benefit. It acts on the stomach, liver, bowels and kidneys, improves digestion and assimilation, overcomes biliousness, corrects constipation and quickly relieves sick headache.

Get your system thoroughly cleansed and purified for once; stomach, liver and bowels working together in vigorous harmony, and you will not have to take medicine every day—just take one NR Tablet occasionally to keep your system in good condition and always feel your best. Remember it is easier and cheaper to keep well than it is to get well.

Get a 25c box and try it with the understanding that it must give you greater relief and benefit than any bowel or liver medicine you ever used or no pay. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

Provision of Funds to Meet Expenses Already Voted Is Serious Business Confronting Present Congress.

By CHAS. S. HAYDEN,
(Staff Correspondent.)

WASHINGTON. Oct. 6. (Spl.)—With
the passage of time the protests to
congress over collection of various kinds
of war taxes increases rather than
diminishes and yet members of the
house and senate, responsible for providing means to meet appropriations already voted and expenses already incurred, say no relief is in sight. Republican leaders in the house had hoped
to emact a high tariff law which, by
the time of the next election at least,
would have permitted the repeal of the
most objectionable among these various
taxes. Sonator Boise Penroe, of Pennsylvania, chairman of the finance committee, stanch "stand-natter" and high
tariff advocate, has announced, however, that he does not favor any general
change in existing tariffs until after
the next election and it is therefore
probable that the so-called "pop-gun"
changes, provided for in several bills
recently passed by the house, will die
in the senate committee.

Solons Hear From Home

Solons Hear From Home.

Practically every member of congress is in receipt daily of one or more letters from his constituents indicating resentment of the payment of some tax or another and there is an energatic lobby in Washington continually urging relief from special taxes borne by special lines of industry. The moving picture industry has been pleading its case recently with various legislators. It has been pointed out that they are "almost taxed to death." In addition to the excess profits tax the proprietors of these showhouses must pay income taxes; they must pay the license or scat tax; the tax on films, and finally, are chargeable with the collection of the admission taxes, the only one they can pass on to the ultimate consumer.

But moving picture concerns are not the only ones that have been pleading their, case. Ice cream dealers have pointed out to congressmen how the tax on that commodity wrings the pennes from the children of the poor while the automobile manufacturers, although admitting they can not supply their orders now, insist the tax on these sales is unjust. The optical manufacturers contend their goods are not luxuries, but necessities, and should not be taxed while insurance men have been pleading for relief on the ground that, for certain lines, the state and federal taxes consumes 12 per cent of their gross premiums.

All these things, coupled with the fact that the congressmen themselves experience considerable distasts in paying the luxury taxes with which they are confronted in making many purchases, has had a tremendous effect on the average member. It would not be difficult to get a majority to vote for almost anything which would offer relief and the Republican members of the ways and means committee have been scratching their heads in a vain effort to find something, but all to no purpose.

"Of course the country is not going to hold us responsible for these high Solons Hear From Home.

effort to find something, but all to no purpose.

"Of course the country is not going to hold us responsible for these high taxes," said one of the Republican members recently in discussing prospects for the general election next year, "but the fact that we will have been in power for two years will take some of the edge off this argument, as far as we are concerned. I recognize that when we try to place the blame on the Democrats the answer will be that we let them stand. Then our reply, I suppose, will be that the Democrats spent so much money on the war that we could not lower the taxes and the Democrats probably will retort we voted for the war sa much as they did. All I wish is that we had some way to lower these taxes. I believe it would have more to do with lowering the cost of living then all the prosecutions Attorney-General Palmer starts—and doesn't finish."

Moving Pictures

Maisstic theater today, Tuesday and Wednesday,
In the photodrama, the child is being "mothered" by a selfish aunt who knows only her own comfort or discomfort, and never thinks of the child's honest desire to play. As the boy is a real mischievous lad, his life is one round of spankings. However, a new governess is engaged who understands his needs and the void which the missing mother love has made. And she succeeds in filling the breach.

What should the father do? His action and how he was impelled to follow it is dramatically told in "Bonds of Love."

Mork Is Begun And New Dutro Sub-Postoffice Work on the new home of the

Work on the new home of the Dutro substation of the Memphis postoffice will begin within the next few days, the work of tearing down the structure now occupying the ground having begun Monday morning. The new station is to be erected on Madison avenue, near CSleveland street.

Contract for the erection of the new building was let sometime ago to W. I. Moody and the plans and specifications forwarded to Washington for approval. Official approval was given last week and on Monday morning the ground was being cleared up preparatory to starting building operations.

The new home of the substation will be of brick a*1 will be erected for the sole purpose of housing the substation. The removal of the station from its nresent location at Madison avenue and Lumpkin street, to a point near Cleveland street and the Crosstown car line will add materially to the efficiency of handling mail matter.

Because of the close proximity to the crosstown line, carriers will be enabled to save a great deal of time in going to their routes, and postal officials believe that this feature shone would justify the change in location. The additional fact that the building will be constructed primarily to house the post-office will also increase the conveniences necessary to the successful operation of the substation.

Every effort will be made to have the new building ready for occupancy by Nov. 24, on which date the lease on the present building at Madison avenue and Lumpkin street expires.
